OHSIG November 2013 Pop Question

Metabolic testing, including treadmill, step and ergometer tests, have become increasingly common as part of pre-employment functional assessments. What type of MET testing do you do and what aspects of the particular test guided your selection?

Please respond via the OHSIG bulletin board at: http://www.orthopt.org/message_boards.php
(Membership login required)

Good Links: Check out <http://www.apta.org/CSM/> for OHSIG programming scheduled for Tuesday, February 4, 2014, 8:00 AM – 1:00 PM (OHSIG Membership Meeting 12:00 – 1:00 PM).

Please send any Pop Question ideas to: cdstoods@yahoo.com
