| 23 | | |
| 24 | | |
| 25 | | |
| 26 | | |
| 27 | <u>GUIDELINES:</u> | |
| 28 | The role of the BOD liaison is to provide a consistent contact person who could be a resource or “go | |
| 29 | between” for each of the committee chairs, special interests groups (SIG) or any external organization | |
| 30 | representatives recognized by the Orthopaedic Section. It is the responsibility of the committee chairs, | |
| 31 | SIG representatives or representatives of external organizations to contact their BOD liaison by Phone/E- | |
| 32 | mail five weeks prior to the CSM, July Board Meeting and October Board Meeting. The | |
| 33 | communication will be especially important prior to the July and October meetings where not all committee | |
| 34 | chairs are present. A review of discussion items, “To Do’s” and current issues or projects would be in order | |
| 35 | during these contacts. Committee reports should be E-Mailed to the BOD liaison prior to submission to the | |
| 36 | Section office for distribution. If timely communication does not occur as outlined, it is the responsibility | |
| 37 | of the BOD liaison to contact the committee chair, SIG representative or representative of an external | |
| 38 | organization to insure consistent communication. | |
| 39 | | |
| 40 | <u>NOTE:</u> | |
| 41 | ▪ This “Guideline” will be sent out annually by the Section office staff and as needed when | |
| 42 | committee chairs change. | |
| 43 | ▪ The rationale for faxing or emailing committee reports to the appropriate Board liaison prior to | |
| 44 | submission to the Section office is to improve communication and stimulate possible discussion | |
| 45 | or action items. | |
