At the APTA annual meeting in Phoenix, June 15-20, 1980, the offices of vice chairman and secretary of the orthopaedic section will be voted on by the membership. The following candidates have been slated for the positions. We urge you to read the statements carefully and make your decision.

The elections will be held at the Orthopaedic Section business meeting on June 14, 6-8 p.m.

Orthopaedic Section
Candidates for Office
1980

Vice Chairman:
1. Duane Saunders
2. Joseph Vierzbicki

Secretary
1. James Robinson
2. Robert Deusinger

Nominating Committee:
1. Joseph Starr
2. William Fromherz

Statement: Duane Saunders

We can all be proud of the accomplishments of the Orthopaedic Section. Attitudes are beginning to change concerning our role. I am pleased to have an opportunity to be part of this process. I believe the Orthopaedic Section should play an active role in the following areas: (1) Continued development of the orthopaedic specialty. (2) Continued expansion of the scope of orthopaedic physical therapy. (3) Improvement of the quality and quantity of the orthopaedic physical therapy curriculum at the undergraduate level. (4) Clarification of the physical therapist-physician relationship. (5) Continued expansion of continuing education opportunities.

Above all, I believe the Section should be responsive to the needs of the members. As new problems and opportunities arise, the Section should provide members the opportunity to work together to solve common problems and achieve common goals. As vice-chairman, I would be particularly interested in the program and continuing education opportunities that the Section would offer the membership. I would also be concerned with the overall function of the Section, and would be available to work in any area where help was needed. I believe my 16 years experience as a clinical physical therapist and in physical therapy education has helped me aware of the problems and opportunities in our profession. My experience in APTA activities includes

vice-chairman of the Orthopaedic Section during the past year. I have also been president, vice-president, secretary, program chairman and chief delegate of the Kansas Chapter. The experience I have gained in these positions will benefit me as a Section officer. It has also made me aware of the importance of holding such positions and the time and effort that must be devoted to do a good job.

Statement: Joseph J. Vierzbicki

As Vice Chairman of the Orthopaedic Section, my duties in addition to a supportive role for the chairman, are mostly directed toward planning the Section’s educational programs for the mid-winter and annual meetings. I am convinced of the importance of these educational programs as a tool to build and strengthen our Section’s membership.

1. An attractive program will draw new membership and keep the interest of those therapists who are currently members.
2. Provide a forum for both research and clinically oriented programs.
3. To foster and develop a total understanding of methods of treatment available to the membership.

The purpose of the national meeting is to advise and inform—not merely to entertain. To construct valid premise for consideration of all aspects of our particular area of endeavor and to provide a starting place for new ideas.

Having been actively involved in the Orthopedic Section in the past, I am aware of the accomplishments which the Section has achieved. Areas of concern to the Section which directly or indirectly affect the secretary include: (1) continued processing of the competency document, (2) continued development of the certification process, (3) improved communication among members of the Section, and (4) increased participation of the members in Section endeavors.

JIM ROBINSON

Jim Robinson is currently an Associate Professor in the Physical Therapy Program, Medical University of South Carolina, Charleston, South Carolina and is also the Director of the Charleston Back School.

Mr. Robinson has been a member of the American Physical Therapy Association since 1967 and a member of the Orthopedic Section of the APTA since 1975. He has attended and presented numerous courses dealing with assessment and treatment of musculoskeletal disorders of the spine and the extremities.

Mr. Robinson has served the Orthopaedic Section in numerous ways in the past including, director of advertising for the Orthopaedic Bulletin and is currently on the education committee of the Section charged with developing a document of competencies for the Orthopaedic Section.

Mr. Robinson has published in Physical Therapy, the Orthopaedic Bulletin and has a publication to be presented in the May issue of the Journal of Orthopaedic and Sports Physical Therapy.

Robert H. Deusinger: Statement

The past five to six years of the Orthopaedic Section have been a period of rapid change, growth, and development. The section was instrumental in developing and nurturing the concept of specialization. As a section we must continue our involvement in this venture.

Our section must also involve more members in section activities. This has been partially accomplished through appointment of committees and task forces regarding such areas of importance as: 1) development, expansion, and improvement of the Sections’ Journal, 2) continuing education programs, 3) expansion of the definition of clinical competencies and scope of practice of the Orthopaedic Physical Therapist, and 4) improvement and development of Orthopaedic Physical Therapy educational programs. If these and other tasks are to be accomplished, there must be effective communication among the members of our section, section leaders, and the American Physical Therapy Association.

Also if each of us directs our individual energies towards section growth, development, and involvement in vital issues of health care Orthopaedic Physical Therapy will continue to play a major role in effective patient care.

It has been exciting to observe the phenomenal growth of our section. I am challenged and excited at the possible opportunity to play a more active role in furthering development of the section. I appreciate the opportunity to be a candidate for secretary and thereby become directly involved with the communication process of our membership. If elected I would work to assist the section in its continued growth and development of Orthopaedic Physical Therapy.

D. Journal Editor's Report by Jim Gould
The Journal of Orthopaedic and Sports Physical Therapy has been deemed an unmitigated success by the Journal Division of Williams and Wilkins.
The last issue of the Orthopaedic Bulletin was published in April, 1979. The first issue of the Journal was published in May, 1979, the second issue in November, 1979. Four issues will be published annually in the future.
At the conclusion of 1979, Orthopaedic Section member subscriptions totaled 3572; nonmember subscriptions totaled 2387; Sports Medicine Section totaled 1794. The total circulation was 7753.
A smaller publication in the form of a newsletter is also being initiated in order to provide timely notification of the membership regarding the slate of nominations for officers, minutes, bylaw changes, etc. This additional publication will also serve to separate Section business from the Journal and allow more space for printing scientific material.

E. Education Committee Report by Carolyn Wadsworth
This Committee is nearing completion of its charge to develop competencies for the orthopedic physical therapist. A 107 page draft document has been prepared, and following minor revisions, will be ready for review by content experts by April, 1980. It was announced that those interested in participating in the review process should contact the Chairman of this committee.
When the Section membership has verified that the competencies identified are thoroughly descriptive of the orthopaedic specialist, the draft document must be approved by the APTA Committee on Competencies before it can be published. The draft document will also be used in completing the petition to the Commission for Certification of Advanced Clinical Competence.

F. Bylaws Committee Report by Dan Jones
A special mailing will be received by the membership 60 days prior to the June, 1980, business meeting in order to inform them of bylaw changes including:
1. creation of a position of President-Elect, which will replace the Immediate Past President on the Executive Committee
2. editorial changes to assure that the Section bylaws conform to those of the APTA
3. provision for election of a Section representative to the House of Delegates

G. Membership Committee Report by Dan Jones
The chairman is still in the initial process of organizing this committee. Two form letters have been developed:
1. to notify new members of the schedule for receiving the Journal
2. to request information from those persons dropping memberships regarding how the Section could better have met their needs

H. Public Relations Committee Report by Greg Silva
The committee will be investigating how it can be of service to the Section by identifying the needs of the Section, target groups which it should contact, and how to best implement an effective public relations function.

I. Legislative Committee Report by Dan Jones
A survey has been developed to inquire about each state's practice act regarding the stipulations on use of manipulation and/or mobilization by physicians, chiropractors and physical therapists.
VI. NEW BUSINESS

A. Stands on Issues

The membership were encouraged to initiate discussion regarding stands on issues.

B. Delegate to House of Delegates

Duane Saunders moved that the Section President be the Section Representative to the 1980 House of Delegates. The motion was adopted.

C. Nominations

The membership was encouraged to consider persons from our Section for nomination to national office.

D. Other

Ira Fiebert stated his concern about the proliferation of courses offering training in orthopedic physical therapy, and lack of standardization and accreditation. Discussion continued revealing the difficulty that would be experienced in trying to develop guidelines for accrediting courses at this time, without official adoption of competencies.

VII. ANNOUNCEMENTS

A. IFOMT

The Executive Committee recommended that Jim Gould and Sandy Burkart represent the Section at the IFOMT meeting in New Zealand, February, 1980. They will both be reimbursed $500 to assist with expenses.

An inquiry will be made about the requirements for membership in IFOMT, to determine if the Section would be able to qualify.

B. Sea Food Bonanza

Through participation in this money-raising project, the Section will make a profit of approximately $3,000, which will be donated to APT-CAC.

C. Joint Mobilization -

Brochures are available for mobilization courses being offered at the University of Pittsburgh. Brochures are also available on the Graduate Programs in Orthopedic Physical Therapy at Kaiser Permanente and the Institute of Graduate Health Sciences.
