Robert Rowe (6-30-2018)

APTA Nominating Committee
Scott Euype (2018)

APTA CSM Steering Committee
Beth Jones and Wendy Featherstone – representatives for large Sections

Edge Task Force
Aimee Klein

GUIDELINES:
The role of the BOD liaison is to provide a consistent contact person who could be a resource or “go between” for each of the committee chairs, special interests groups (SIG) or any external organization representatives recognized by the Academy. It is the responsibility of the committee chairs, SIG representatives or representatives of external organizations to contact their BOD liaison by Phone/E-mail five weeks prior to the CSM, July Board Meeting and October Board Meeting. The communication will be especially important prior to the July and October meetings where not all committee chairs are present. A review of discussion items, “To Do’s” and current issues or projects would be in order during these contacts. Committee reports should be emailed to the BOD liaison prior to submission to the Academy office for distribution. If timely communication does not occur as outlined, it is the responsibility of the BOD liaison to contact the committee chair, SIG representative or representative of an external organization to insure consistent communication.

(3/13/12, 4-9-13, 1-31-16, 5-2-18)
ACADEMY OF ORTHOPAEDIC PHYSICAL THERAPY LIAISONS

1. This “Guideline” will be sent out annually by the Academy office staff and as needed when committee chairs change.
2. The rationale for emailing committee reports to the appropriate Board liaison prior to submission to the Academy office is to improve communication and stimulate possible discussion or action items.
