# FOUNDATION FOR PHYSICAL THERAPY

- The Foundation continues to work tirelessly “putting the evidence in evidence based practice”.
  - With the support of our Section and its members, the Foundation was able to fund over \$1 million in research in 2017 and is on track to fund over **\$1.3M in 2018**.
- The Foundation funded Center on Health Services Research known as **CoHSTAR** - which the Section and many of you generously supported - enters the 3<sup>rd</sup> year of a 5 year grant.
  - The impact of researchers funded is growing:
    - **28 articles published, 30 abstracts** for scientific presentations at conferences submitted, and over **18 speaking engagements/meetings** to date.

# FOUNDATION FOR PHYSICAL THERAPY

- This year, the Foundation will offer a **\$40,000 grant** made possible by our Section's endowment fund.
- **The Foundation for Physical Therapy is our Foundation, it's our charity. We all want to see our profession grow, and the ONLY way for that to happen is for all of us to unite under a common goal. The goal that can advance all of us is improving physical therapy through evidence-based research.**
  - At CSM, the Foundation is asking each of us to contribute to the **Power of One** – small donations by each of us can raise enough funds to provide one new path of discovery, one new achievement in evidence-based research.
- **Thank you** for continuing to give back to your profession and helping the Foundation expand evidence-based research.
