

CSM 2020

AOPT THURSDAY PLATFORM PRESENTATIONS

Block #	Time	Title	Presenting Author
Platform Block I	8:00 AM	Supraspinatus Shear Wave Speed As a Predictor of Tear Chronicity and Pre-Operative Shoulder Function	Rebekah L. Lawrence, PT, PhD
	8:15 AM	Does Spinal Manipulation Therapy Target Central Drivers of Pain in Individuals with Subacromial Impingement Syndrome?	Amy Hegarty, PhD
	8:30 AM	Development of a Clinical Practice Guideline for Adults and Workers with Rotator Cuff Disorders	Simon Lafrance, PT, MSPT
	8:45 AM	Timing of Rehabilitation Following Rotator Cuff Repair: A Cost-Utility Analysis	Kate Minick, PT, DPT, PhD
	9:00 AM	Influence of Clinical Findings on Physical Therapist Diagnosis of Shoulder Instability	Constantine P. Nicolozakes
	9:15 AM	Measurement Properties of the Timed Functional Arm and Shoulder Test in Patients with Shoulder Problems	Daniel Wingate Safford, PT, DPT
	9:30 AM	Diagnostic Utility of Special Tests and Demographic Information for Diagnosis of Atraumatic Rotator Cuff Tears	Adam J. Popchak, PT, DPT, PhD
	9:45 AM	Repetitive Dental Hygienist Job-Related Tasks Increase the Risk of Shoulder Pain and Altered Supraspinatus Morphology	Federico Pozzi, PT, PhD
Platform Block II	11:00 AM	Early Versus Delayed Physical Therapy Following an Emergency Department Visit for Low Back Pain	John Shelton Magel, PT, PhD
	11:15 AM	Task-Based Functional Connectivity during Lumbopelvic Motor Tasks: An fMRI Study in Healthy Participants	Max Jordon, PT, DPT
	11:30 AM	Nonspecific Effects of Osteopathic Manipulative Treatment for Low Back Pain	John Popovich Jr., PhD, DPT
	11:45 AM	Impact of Low Back Pain Chronicity on Patient Outcomes Treated in Outpatient Physical Therapy	Zachary Everett Walston, PT, DPT
	12:00 PM	Low Back Pain-Related Walking Impairments Are Associated with Pain Sensitivity, Movement-Evoked Pain, and Psychological Factors	Katie Ann Butera, PT
	12:15 PM	Physical Impairment and Performance Based Low Back Pain Subgroups for Enhanced Prognostic Clinical Decision Making	Jason M. Beneciuk, PT, DPT, MPH, PhD
	12:30 PM	A Survey of Physical Therapists' Attitudes Regarding Diagnostic Imaging	Sean Daniel Rundell, PT, DPT, PhD
	12:45 PM	Recommending Imaging Is a Common Role for Physical Therapists in Clinical Practice	Murray Ernest Maitland, PT, PhD
Platform Block III	3:00 PM	Physical Therapy Is Associated with Reduced Opioid Utilization in People with Knee Osteoarthritis	Deepak Kumar, PT, PhD
	3:15 PM	Will the Promis Self-Efficacy Scale Assist Providers in Making Clinical Decisions?	Daniel Chang Yun Kang, PT, DPT*
	3:30 PM	Survey of Wisconsin Physical Therapist Radiograph Ordering Behaviors and Implementation: A Mixed-Methods Approach	Evan Othmer Nelson, PT, DPT
	3:45 PM	Do Interventions and Recommendations Provided By Physiotherapists and Physicians in the Emergency Department Differ?	Rose Gagnon, PT, MPT
	4:00 PM	Lower Rates of Opioid Prescription with Increased Referral to PT By Physicians Who Treat Lbp	Stephen J. Hunter, PT, DPT
	4:15 PM	Scoring Method of Ospro-Yf Tool Does Not Change Prediction of Pain Reduction at 12 Months	Maggie Elizabeth Horn, PT, DPT, PhD
	4:30 PM	Interrater Reliability of a Novel Treatment Fidelity Tool Examining Guideline Adherence of Physical Therapists	Alexandra Zigmont, PT
	4:45 PM	Evaluation of Guideline Adherent Education for Therapists Seeing Patients in an Optimized Early PT Pathway	Hank Havlin, PT, DPT
