

# Ultrasound Imaging in Physical Therapy

See it! Know it! Treat it!

**97% of patients**  
understood their conditions better after PTs used ultrasound imaging  
(Lumsden et al., 2018)

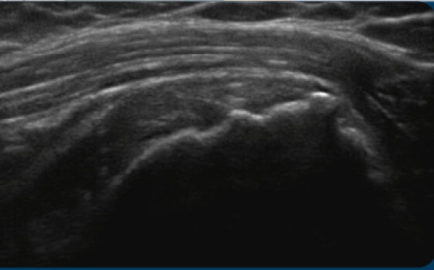

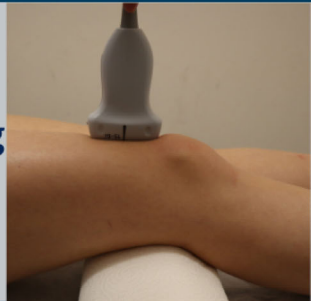

**PTs using ultrasound imaging can lower patient-management risk**

**Physical therapists can earn the RMSK, same as physicians**  
(Rigorous exam and strict credentialing requirements)

**Physical Therapists are recognized as Proficient Providers of Diagnostic Ultrasound Imaging**

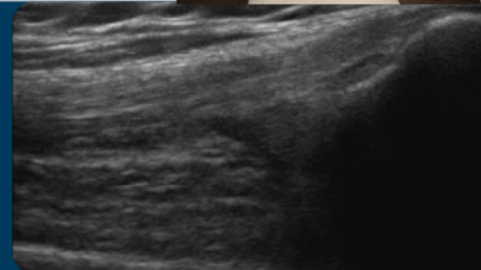

**American Institute of Ultrasound in Medicine (AIUM)**  
**Inteleos/Alliance for Physician Certification & Advancement (APCA)**

**Portable**

**Accessible**

**Non-Invasive**

**57%**

**PATIENTS**

Avoided unnecessary procedures because of ultrasound imaging  
(Situ-LaCasse et al., 2018)

**\$6.9 Billion**

**SAVINGS**

Compared to MRI from 2006 to 2020 hypothetically  
(Parker et al., 2008)

**38%**

**THERAPISTS**

Used ultrasound imaging for a variety of clinical uses in 49 countries  
(Ellis et al., 2020)
